

1)Build a php code to store name of students in an array and display it using print_r function.Sort and Display the same using assort & arsort functions ?

Ans:

```
<html>

<head>

<style >

body{

    text-align: center;

    border:inset;

    background-color: #017572;

    font-style: oblique;

}

</style>

</head>

<body>

    <br>

    <br>

    <center><h1>Asort & Arsort</center>

<?php

$name = array(' avani ', ' aanjima ', ' kerthi', ' manu', ' kichu');

echo "<br>";

print_r($name);

echo "<br>";

asort($name);

echo "<br>";

echo "sorted Array(using asort): ";
```

```
echo "<br>";
foreach($name as $x => $x_value) {
    echo "Key=" . $x . " , Value=" . $x_value;
    echo "<br>";
}
arsort($name);
echo "<br>";
echo "sorted Array(using arsort): ";
echo "<br>";
foreach($name as $x => $x_value) {
    echo "Key=" . $x . " , Value=" . $x_value;
    echo "<br>";
}
?>
</body>
</style>
</html>
```

OUTPUT
